

Press Release

On the initiative of Georgian Industrial Group, the training in mining process begins with the latest - modular method

On the initiative of Georgian Industrial Group, Quality Management Center of the Ministry of Education granted authorization to three mining programs, which will be implemented on the base of Tkibuli Mining Technological Institute of Mining and Geological Faculty and "Saknakhshiri" Ltd. (GIG Group).

The trainings will be conducted with the latest-modular method, which means that more than 50% of the program will be implemented directly in the process of production and the graduates will acquire both theoretical and practical knowledge and master the professions of "mining mechanical engineer" and "solid minerals enrichment" and get employed by these specialties in "Saknakhshiri" (GIG Group) Ltd. "The new flow of students will soon start to arrive. We hope that young people will be actively involved in the program and in the future qualified graduates will be able to work in our company", said Jambul Jakeli, the General Director of "Saknakhshiri GIG". According to him, the enterprise has already managed to provide college infrastructure and material inventory.

Press Release

We would like to remind that it is the initiative of Georgian Industrial Group to arouse the interests in diminishing professions and to train the relevant personnel relevant to the new technological challenges. GIG has been working on the new programs and modern methodology with the Ministry of Education for almost a year. Three mining programs received accreditation at Quality Management Center on March 20, 2018.

GIG - the company having 20 - year business experience is one of the largest Industrial Group in Georgia. Its business portfolio includes coal mining, electric power generation (hydro, natural gas and coal-fired stations) natural gas trade and real estate management. David Bezhushvili is the founder of Georgian Industrial Group.
